

IN THE COURTHOUSE BASEMENT.

Meeting of the Antis Last Night—A Preacher to the Front.

Soon after dark a brass band began playing in front of the county courthouse, and white and colored anti-prohibitionists began coming from all sides. They went into the basement of the courthouse.

Colonel Goodwin and the Rev. Dr. Pickett entered and were greeted with loud applause. Colonel Goodwin said he was here only long enough to introduce the orator of the evening; that he had an engagement to speak at another meeting, and in a few minutes must go. He presented Mr. Pickett, who received a warm welcome.

MR. PICKET said that he had a number of the anti-prohibitionists who are not religious and who would refrain from opening it with prayer. He said that he had not been informed that he was expected to make an address until late in the afternoon, and he did not know how he could. He said that he came before the meeting as a citizen, laying aside his clerical garb. One of his principal objections to the prohibition cause is that they take advantage of their high calling. Good men, righteous men, have been deceived by the hypocrisy of the clergy. They call for all who are not with them should be put in the category of the unwashed rabble. "I am a God-fearing man, and I have hesitation in saying that I must not be good man, honest and industrious men in this anti-prohibition party, as there is in the prohibition party. I live a temperate life, and this is the only way to demonstrate one's sincerity. [Applause.] The difference between the anti-prohibition reformer and the prohibitionist is that the reformer are willing to divide with others what they have, while the latter want to take all they can get and keep all. I am not a prohibitionist, and I do not want to be abused. We abuse our liberties in many respects. Solomon said that if we are given to gluttony we had better put a knife on our lips, so that we will not offend."

ticular to dwell upon and concentrate all their thoughts upon one sin, I have never been able to understand. I attribute this to the fact that the position of the man is the one idea of drunkenness and want to banish it from the land. They are not only afraid to trust themselves, but are unwilling to trust others. I have been told that I have deceived you before, and I stand before you as a citizen, knowing that I will be denounced by my brothers in the ministry and by other deluded people. I have been told that I have deceived a minister who has had the boldness to speak out his convictions. It is true that Dr. Hornaday intended to do what I am now doing, but he was contented to receive the blows and was weakened. [Applause.] Well, I am ready to receive some of the denunciations. This light before us is not a matter of religion. It is a matter of conscience and appetite. The food of the kingdom of God is not meat and drink.' If this thing is not retrenched at the ballot-box, I do not know to what lengths this thing will go. It is very plain that the people are growing weary of what prohibition being brought in as a

minimax. As far as my mission as a minister of the gospel is concerned, it is my duty to tell the truth and to leave the rest to God. He has just as much respect for you, my friends, as for any other class of people. What I object to about these political preachers is that they are so much more concerned to take advantage of their high calling to influence weak-minded men and women. They are degrading their holy calling and bringing down upon themselves the wrath of God. I am a stranger. I have not been invited here; I am here at my own instance. I can see in this anti-prohibition party the spirit of the anti-slavery and anti-segregation parties. Applause. I see in this grand republic the same right that God has given to his people of freedom and liberty. Now, so far as this issue is concerned, I am a stranger. I am not a free man. I once ran for the office of ordinary in the county of Pickens. My opponent was a prohibitionist, and he tried to get me to show him how I would handle the liquor question in the election and got a pot of

men, and said that Pickett wouldn't drink with him, and he wanted all the boys to drink with him, he was elected. I was a total abstemious vet, and I thought that would be issued. I refused to grant any for four years. This shows how I stand on the temperance question. Men have undertaken to remove whisky from Atlanta, but they still drink it here. I never was in a barroom in my life. I have seen and not about 100 years ago, but I never had a drink offered me until prohibition went into effect. Men drink all the same. It is not any use to talk about exterminating this evil. It is here, and can't be banished. I like to see men, women, myself, and I don't intend that my

The first speech was made by the dashing Colonel George C. McDowell, of Baker's company, who, in his opening remarks, gave some practical reasons for the faith that is in him. Frank Haralson followed in a casual talk of

minutes. He spoke of the unconstitutionality of all summary laws and declared that the constitution could never be enforced, for it does not meet with the sanction and support of every-loving citizens. His remarks evoked much cheer.

Joseph Smith spoke for about ten minutes and made a good impression. Some of his ideas were received with great demonstrations of favor.

J. C. Shelton, colored, spoke briefly. His address was regarded as one of the best of the night.

During the meeting a count was made. It was found that 500 voters were present. The presence was something wonderful.

Buckton County's Registration for the Prohibition Election.

BIGGEST REGISTRATION EVER KNOWN

**Increase of Nearly 25 Per Cent Over 1885—
Scenes About the Registration Pre-
dicts—Great Surprise.**

Sombody is going to be surprised when the votes at the prohibition election are counted. The registration was completed last evening and it was the biggest ever shown in this county. In 1885 there were registered 8,906 votes for the prohibition election. This year the grand total reaches 11,140.

THE CLOSING SCENES.

About two registration offices in the county were typical election day scenes. The men and both sides were hard at work. During the entire day the registration offices were crowded with voters of various sizes, shape and shades of color. Both parties had regularly organized workers, and carriage load after carriage load of voters were brought to the offices and registered.

There were workers of both parties keeping up the registration lists, and as each man came up he was "sized up" with a view to ascertaining as nearly as possible, the probabilities. The crowd increased as the hour was passing drew near and there was great activity.

The figures, as given below, indicate that the greatest interest has been taken by all classes of people and the indications point to a heavy vote.

THE TOTAL REGISTRATION.

The following table shows the total registration for the county as compared with that of 1885. In the table for 1885, the Buckhead vote was estimated. In the table for 1887 the exact figures have not yet been made known. The figures given are based on those of 1885, the increase being in proportion to that in the other county precincts. In the comparison of the votes it must be borne in mind that since 1885 a portion of Buckhead district has been added to Collins district. The figures are as follows:

Districts.....	1885.	1887.
Buckhead.....	3,131	3,470
South Atlanta.....	4,062	4,600
East Atlanta.....	125	146
East Point.....	242	242
West Point.....	112	203
North Atlanta.....	294	327
Danville.....	143	183
Oak.....	58	71
Forest Hills.....	71	151
Old Grove.....	104	104
Northwest.....	104	104
Hatchree.....	230	170
Total.....	8,906	11,140

CITY REGISTRATION BY WARDS.

The total registration for the city is 8.5% divided as follows:

First ward.....	1,921
Second ward.....	1,294
Third ward.....	1,046
Fourth ward.....	1,042
Fifth ward.....	1,245
Sixth ward.....	1,662
Total.....	\$,570

THE INCREASE.

A comparison of the registration in the city with that of two years ago shows an increase of 1.267 votes or 18.8 per cent. The county precincts show the greatest increase—317 votes or about per cent of the vote in the same precincts two years ago. The total increase in the entire county is 2,174, a little over 24 per cent.

Enthusiasts on both sides are "claiming everything with confidence." Somebody is going to be disappointed when the votes are counted.

LOSING THEIR TEMPER

The Antis are Getting Mad and a Fellow Don't Get Mad When Things are Against Him.

The prohibitionists were in a good humor yesterday.

They are in a better humor this morning. It is the antis who are mad and who are dealing such epithets as scoundrels, base villains and hypocrites. They are also getting out about the best of things.

Don't you know that if the antis had the bare majority they claim they would not be howling? They would be smiling.

But it is the prohibitionists who smile and the antis who are mad.

The claim that a majority of the white vote against prohibition is absurd. No man believes so. He can make no serious assertion. The prohibitionists will get over three-fifths of the white vote. Likelier two-thirds, and the more intelligent negroes are against barroom, and the balance are coming around in good shape. The monster meeting Monday night made the antis mad.

Remember this. It ain't the fellow who is laughing at that smiles. He is the fellow that gets mad and calls everybody scoundrels and hypocrites.

All the prohibitionists have to do is to continue to work and they will sweep the city and county like a whirlwind. Remember it is the antis fellows who are mad and are howling.

Prohibition Points.

Mr. Sam Tuman showed them a thing or two about cotton, did it not? The people will bless him for having suggested a majority of the white vote as well as profits against him for this. If it had hurt the cotton trade of Atlanta don't you see they would know it.

Atlanta is growing, and the great increase of population would seem to indicate a large growth in population.

The cotton claim claims three-fifths of the white vote, when they know that one-third is nearer the proportion of that vote which they are likely to get.

It is true that the negroes are a majority of the white people of this city and county would vote for opposing of tarro mas.

It is true that the negroes are intelligent and virtuous colored people were giving evidence of fidelity to their principles, they realize it.

It was like a bicycle race, the way "from Fairmount to Atlanta."

It is true that negro coolies moved from too early? But maybe the drayage and the gas bills come out of the pocket fund.

It is true that county registration books have been sent to it that prohibitionists register on the city.

Let us give the few days from now to election to build up a crushing majority.

If you see we wish to catch this question.

And they try to keep the other side in a good manner, if you can, for we wish them well, and want them to stay here and help whop up Atlanta hereafter.

Part is men with so much energy as they exhibit their campaign could be very useful in a good cause.

And they won't do so any more.

THEY ARE MARCHING TO THE POLLS!

Cheerful, Confident and Bound to Break Up Prohibition.

The heavy registration shows that the people are aroused.

They have seen men arrested without warrant.

They succeed without law;

They have seen mechanics leaving the city to seek work elsewhere,

Then Atlanta should have given them employment.

They have resolved to end this stagnation, and bring life back to the city;

They will vote down prohibition against trade.

End the reign of espionage and confiscation, and restore Atlanta's prestige.

Increase registration means—

Voters opposed to prohibition,

And they will be heard from on the 20th!

ROYAL BAKING POWDER.

The Minister In Charge of Bethel Church, In Atlanta.

WRITTEN BY SENATOR COLQUITT,

In Which the Presiding Elder is Asked to Give the Church Another Preacher.

Bethel church is situated on Wheat street, near the branch, and for the past year or more the Rev. Dr. Flipper, an Atlanta divine, has been in charge.

And the same minister will be in charge for another year.

At the annual conference of the church to which the Rev. Dr. Flipper, who, by the way, is an Atlanta negro, has been in annual session for more than a week in Rome. Dr. Flipper, with a delegation of church officers, has been present, and since his return a sensation has leaked out.

That sensation has a play upon the prohibition campaign, not yet begun.

It has been generally rumored upon the streets for some days that during the session of the conference Presiding Elder Wayman, of Baltimore, received a letter from Hon. A. H. Colquitt, United States senator, in which the prohibition issue now pending and the Rev. Dr. Flipper were discussed. The letter informed the presiding bishop that Dr. Flipper was not a pulpit orator at all satisfactory to the Big Bethel church, and requested the removal of that divine, and the return of a minister who would do the cause of prohibition good.

When the first information of the letter was received in Atlanta but little attention was given, and it was not until it became generally known that such a paper had been promulgated among the preachers of the church, the interest became general, and the return of the minister of both parties with interest.

He returned last night.

Soon after the state road train reached Atlanta, and the next morning a newspaper reporter called at the Rev. Dr. Flipper's residence in Wheat street. The residence, or parsonage as it may be called, is immediately opposite the residence of the presiding bishop. The letter in the servant who responded led the way into the library. The room was neatly and nicely furnished. The floor was carpeted with blue Brussels carpet, and while beautiful pictures adorned the wall. A magnificent case of books occupied a corner of the room, and comfortable furniture filled the room. In the street minister was watching the gentleman said:

"Yes, I have just returned from the annual conference of my church, which has been in session at Rome."

"Had a pleasant time?"

"Oh, yes; I had a very pleasant time. The people of Rome are the most hospitable in the world, both white and black, and always give visitors a pleasant time."

"And you have been returned to the same charge for another year?"

"Yes, the conference returned me to Bethel church for another term."

"Without opposition?"

"Why should there have been opposition? I have done my duty as a minister, and my congregation has done its duty, too."

"And everything passed off pleasantly?"

"Oh, yes."

"But was there no attempt to remove you?"

"Of course not. Why should there have been? By the way, there was a letter from Hon. A. H. Colquitt, United States senator, I received last night."

"What was that letter?"

"Oh, nothing much."

"But it is publicly stated that Senator Colquitt had done some letter for your removal from Bethel church."

"Who says so?"

"That is the general talk. The letter has been talked of in Atlanta for two or three days past."

"Is that so? Well, I never saw the letter."

"When you do, you speak of it?"

"No more than what the presiding elder said."

"And what was that?"

"Well, he read the letter, or rather repeated it."

"And what was his repetition of it?"

"He stated that he had just received a letter from the conference, and that Senator A. H. Colquitt, signed Senator Colquitt."

"And what was the letter?"

"Well, I don't care to say."

"But the public wishes to know."

"Oh, I guess not."

"Did he ask for your removal?"

"He asked the bishop to consider carefully whether he should remove me."

"And why?"

"He said that the present minister, myself, had taken a very inactive position in the prohibition cause, and because of my inactivity the entire congregation had become inactive and that the church was doing no good."

"What was United States Senator Colquitt?"

"Oh, yes."

"And what remedy did he suggest?"

"He recommended that the bishop appoint someone who would do his duty in the church and out of it for prohibition."

"And what did the bishop do?"

"He returned me to Bethel and at the same time he directed me to conduct a campaign with a view to no minister in the conference would take a hand in prohibition elections or the political campaigns."

Major Mims and Dr. Hawthorne.

In this morning's Constitution Major Mims, after charging that Dr. Hawthorne misrepresented him in his sermon on last Sunday, says:

"The friends of Mr. Mims and his language, even misquoted as it is, very tame matter to shock his hearers, or upon which to invoke divine vengeance, and they are entirely unwarranted. In connection with the past campaign, unapproached and unapproachable in its horrible character, and too shocking even to mention, the vile insinuation that Dr. Hawthorne's pupil be said: "If prohibition did not succeed in Atlanta, then was THE BIBLE A LIE and the Lawd kins terrible. Horrible!"

This is what Dr. Hawthorne did say, &c his opera house speech two years ago, as printed verbatim in the Constitution.

"If these ends of vice should be closed, and the people of Atlanta are not more prosperous, happy and longer dwell here than they are today then the Bible is not true, and God himself is a myth."

"Who has done the misrepresenting?"

A Bold Game.

The advocates of barrooms know they stand no chance before the white vote and but little with the colored vote if let alone; and it is generally understood they are getting money from the breweries and liquor dealers to buy votes to influence the colored vote. It is only to cover their own purposes that they say such bad things about the prohibitionists. It is a bold game, but the public will not be deceived.

The Preachers.

Wonder how it is that Major Mims condemns the preachers who are for prohibition, but makes no word of disapproval for the preachers who make whisky speeches? A preacher may possibly be over-zealous in his advocacy of prohibition, but cannot even the major see that there is something fearfully out of place in a preacher of the gospel becoming an apostle of bar rooms?

Of course, the preacher who does so is an object of contempt to Major Mims and his fellow campaigners are sensible men.

Festival.

All the young people will be out to-night to getysters at No. 3 Peachtree street. They will be back by the young ladies of the First Methodist church.

Dr. Rankin's Position.

In a letter to a friend and brother under date of October 31st, ultimo, just before he left for Europe, Dr. J. W. Rankin, because of great personal grief and old age, writes: "WILL EXERT IN THE GREAT CONTEST WHICH IS NOW GOING ON TO KEEP SALOONS OUT OF OUR BELOVED CITY. THE RESPONSIBILITY NOW, IT SEEMS TO ME, IS MUCH GREATER THAN EVER BEFORE. WE WOULD NOT FOR WORLDS TAKE THE RESPONSIBILITY OF REMAINING INACTIVE IN SUCH A CONTEST."

This shows that he fears for the prosperity of the "Capital City Land and Improvement company under prohibition?"

The moral reform party admit that three-fifths of the white vote is against them. They expect to buy enough votes to change the result. They can make their reporters lie, for they are liars. Look at Leggett.

That is the Position R. C. Black
Has Won,

AFTER EIGHTEEN MONTHS HARD WORK

His Goods Are Warranted to Be Just
as Represented, and One
Price to All.

All success that is worth anything is founded
on merit. The public can not be received
and in the long run will repel those who try
it. When we look on the solid institutions of
this city, we see at once that those who suc-
ceeded, have done so by honest and correct
dealing.

Mr. R. C. Black, who began business here
about eighteen months ago, has pushed his
way to the front by following strictly business
principles, and treating all a like, be they rich
or poor. He is today one of the largest
retail shoe dealers in the city, and is
still pushing ahead. Mr. Black is a man,
who places but one price on his goods, and
his prices are polite and attentive. If you will go and
price his goods, there is no doubt but what you
will be pleased with them, for as we said
above he keeps only the best. He has a full
line of men's, ladies' and children's boots and
shoes. His felt slippers are quite the sensa-
tion of the season, and are the very thing for
the ladies. We write this unsolicited and
unknowingly to Mr. Black, and state these
things as we do because we know them to be
true.
